

ANKUSH RANA

Full Stack Developer

Kangra, Himachal Pradesh, India | +91 8278838721 | ranankush239@gmail.com

linkedin.com/in/ankush-2b17982b9 | Portfolio: portfolio-nu-gules-34.vercel.app | GitHub: github.com/AnkushRana01

PROFESSIONAL SUMMARY

Motivated Full Stack Developer with hands-on internship experience building responsive web applications using React.js, Node.js, Express.js, MongoDB, and MySQL. Proficient in RESTful API design, database management, version control with Git, and collaborative software development. Passionate about delivering clean, scalable code and eager to contribute to a high-performing engineering team.

TECHNICAL SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

Back-End: Node.js, Express.js

Databases: MongoDB, MySQL, Firebase (NoSQL & SQL)

Cloud: AWS S3

Tools & Platforms: Git, GitHub, VS Code, Postman, Vercel

EXPERIENCE

Full Stack Developer Intern — Ziion Technology, Mohali

Jan 2026 – Jul 2026

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MySQL, contributing to faster feature delivery and improved code quality.
- Designed and integrated RESTful APIs enabling seamless client-server data communication across multiple application modules.
- Collaborated with cross-functional teams on testing, debugging, and deployment; identified and resolved performance bottlenecks, reducing page load times.
- Managed and optimized application databases (MongoDB and MySQL), improving query efficiency and ensuring data integrity.

PROJECTS

UpStack — Cloud File Storage & Sharing System

React.js, Node.js, Express.js, MongoDB, AWS S3, JWT Authentication, Tailwind CSS, Vercel

- Developed a production-ready cloud storage platform supporting file upload, download, deletion, folder organization, search, and drag-and-drop UI with real-time progress tracking.
- Implemented JWT authentication with bcrypt password hashing and role-based access control (admin/user), protected routes, and an admin dashboard for managing users, files, and activity logs.
- Integrated AWS S3 cloud storage with an encrypted local fallback; enabled secure share link generation and user-to-user file sharing with granular permission control.
- Deployed the frontend on Vercel and documented a full REST API suite covering authentication, file management, S3 upload, sharing, and admin operations.
- Built a RESTful admin API for monitoring system-wide file activity, flagging suspicious behaviour, and enabling bulk delete/restore operations with a comprehensive audit trail.

ReactMeal — Food Delivery Application

React.js, JavaScript, Firebase Realtime Database, CSS Modules

- Built a responsive, component-driven food delivery application with a dynamic menu fetched in real time via Firebase Realtime Database REST API integration.
- Designed a cart system supporting item addition, quantity adjustment, and removal with real-time total calculation and smooth micro-animations.

- Implemented a checkout form with input validation that persists customer orders and item details to Firebase, demonstrating end-to-end full-stack data flow.
- Applied React Context API and custom hooks for global cart state management, eliminating prop drilling and ensuring consistent UI state across all nested components.

Student Management System

Node.js, Express.js, MySQL, EJS, MVC Architecture

- Built a full-stack student and course management system following MVC architecture with organized controllers, models, and routes for maintainability and scalability.
- Implemented complete CRUD operations for student profiles and course management with search and filter capabilities, backed by a MySQL relational database.
- Secured application configuration using environment variables via dotenv; delivered a responsive UI with hover effects and smooth transitions using vanilla CSS.
- Developed a module-based Express.js server with middleware for request logging, error handling, and input sanitization, ensuring data validity and application security.

Personal Portfolio Website

React.js, JavaScript, CSS, Vercel

- Designed and deployed a fully responsive personal portfolio website showcasing projects, technical skills, and live demo links, hosted on Vercel.
- Optimized the UI for cross-device compatibility with clean layout patterns, smooth transitions, and a professional design tailored for both recruiter and technical audiences.
- Implemented SEO best practices including semantic HTML5 elements, descriptive meta tags, and optimized asset loading to improve search engine visibility and accessibility scores.

EDUCATION

Master of Computer Applications (MCA)	2024 – 2026
Himachal Pradesh University	
B.Sc. Computer Science	2018 – 2021
Himachal Pradesh University	
Higher Secondary (12th)	2017 – 2018
HP Board of School Education	
Matriculation (10th)	2015 – 2016
HP Board of School Education	

CERTIFICATIONS

- GenAI Powered Data Analytics Job Simulation — Forage (Sep 2025)

LANGUAGES

Hindi (Fluent) | English (Professional Working Proficiency)
